

Prins Maurits : Fonar – description

The Prins Maurits bunkered low Sulphur MGO at Lome, date 07 – September – 2015.

The Prins Maurits is underway from Lome to Houston.

According to the Bunker Delivery Receipt the delivered fuel has a Sulphur content of 0.094%.

The Sulphur content was confirmed by the bunker supplier and the Certificate of Quality shows the same figure.

The sample-sample was tested at Guardian Marine Testing (GMT) on owner's request.

The test result of the bunker sample send to GMT was 0.13%.

The vessel will change over to the MGO bunkered in Lome upon entering the ECA area

Vessel will bunker MGO at her upcoming port-call Houston.
